

MT Summit X

September 12-16, 2005
Phuket, Thailand

The tenth Machine Translation Summit, organized by the Asia-Pacific Association for Machine Translation (AAMT), will be held at Phuket Island, Thailand in September 2005.

MT Summit X will bring together the scientists, developers and users in the area of machine translation. The frontier research and demonstration from leading academic institutes, business and government sectors will show up their latest results. In the main conference, MT Summit X will provide various features including research papers, reports on users' experiences, invited talks and panel discussions. Surrounding the main conference the expanded program will cover the sessions of tutorial, workshop and exhibition. This wide coverage features in the machine translation arena will facilitate participants from the sectors of academy, research, business and government to get together to explore the machine translation technology for conquering the problems in language barriers and digital divide.

AAMT cordially invites you all to MT Summit X, to contribute and witness the efforts in machine translation technology.
